

Recommended for maintenance, operations and reliability personnel ...

*We cordially invite you - our valued customer, to SKF seminar on
'Precision laser alignment & its applications, Magnetic bearings and the
new self-aligning roller bearing'*

Tuesday November 22nd	Dubai	Le Meridien, Dubai Airport
Wednesday November 23rd	Abu Dhabi	Sheraton Abu Dhabi Hotel & Resort
Thursday November 24th	Qatar	Ramada Plaza, Doha
Sunday November 27th	Muscat	City Seasons Hotel, Muscat
Monday November 28th	Sohar	Crowne Plaza Hotel, Sohar
Wednesday November 30th	Kuwait	Hilton Kuwait Resorts
Thursday December 1st	Bahrain	National Institute for Industrial Training (NIIT), Hidd Industrial Area

Agenda

8:00 - 8:30 am Registration

8:30 - 10: 00 Precision laser alignment

- turbine alignment
- motor alignment
- diesel engine alignment
- gear box alignment
- kiln alignment
- roll alignment
- oil rig leg alignment
- propulsion alignment
- cardan shaft alignment

10:00 - 10: 30 Coffee break

10:30 - 11:30 SKF magnetic bearing technology
Magnetic bearing application in:

- turboexpanders
- turboexpander for sour gas applications
- integrated motorized compressors
- sealed motorized compressors
- flare recovery compressors
- expander generators
- heavy gas turbine generators
- micro gas turbine generators

11:30 - 11:45 Break

11:45 - 12:45 Self-aligning roller bearings: improved wear and contamination resistance
Applications for mining & cement; material handling, steel, aluminium, industrial transmission, pre-heater and marine.

12:45 Buffet lunch

SKF seminar is complimentary to our valued customer.

To register, please confirm via return email or with SKF Authorized Distributor as below.
